Ms. Susan Burks
Invasive Species Program Coordinator
Play-Clean-Go Program
Minnesota Department of Natural Resources

Dear Ms. Burks:

As you know, several individual member agencies of the Federal Interagency Committee for the Management of Noxious Exotic Weeds (FICMNEW) are major partners/sponsors of the Play Clean Go initiative. Education and outreach programs such as this one are a vital part of increasing public awareness about the invasive species issue, and FICMNEW congratulates Play Clean Go for its efforts.

FICMNEW members will continue to work with members of the Play Clean Go initiative to improve the content and accuracy of their website and training materials. FICMNEW members agree that the Play Clean Go campaign provides valuable educational information and simple-to-follow steps to prevent the spread of invasive species.

We thank you for your efforts to educate the public about invasive species issues,

Annie Simpson
