

Metadata Training Priorities

Results of a fairly informal survey

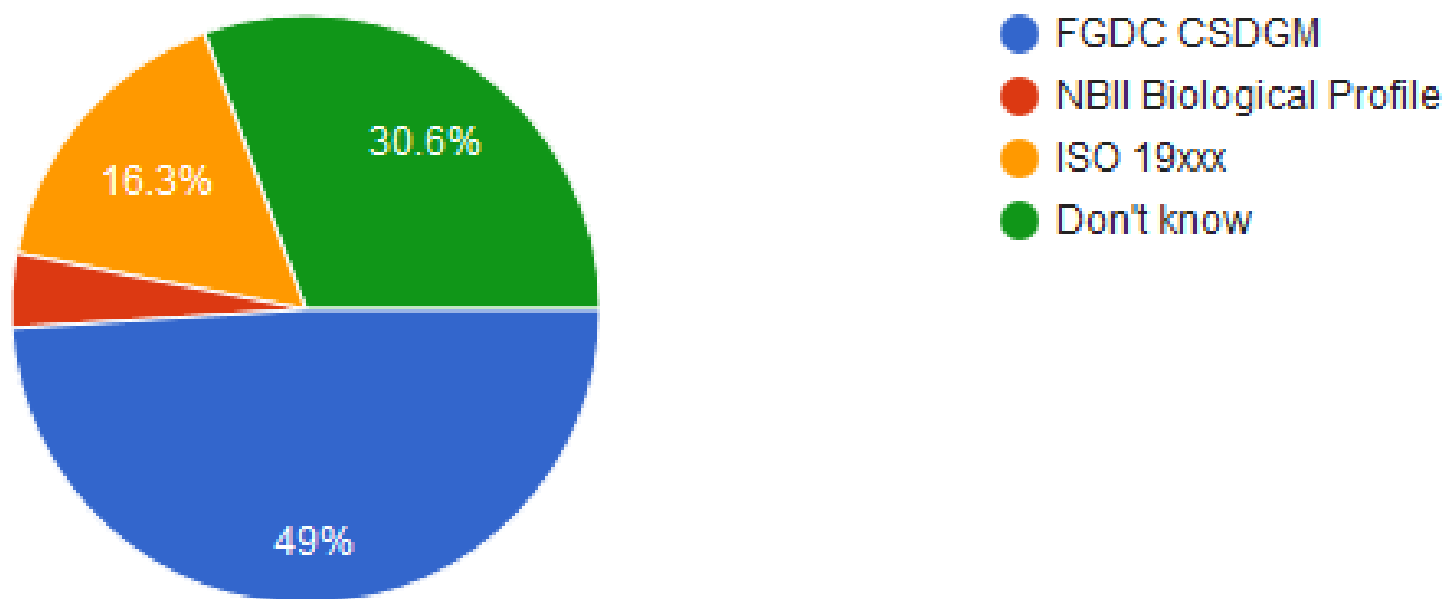

What knowledge or skills do you most need to learn, first? (Check only one box.)

49 responses

What metadata schema do you most need to learn, first? (Check only one box.)

49 responses

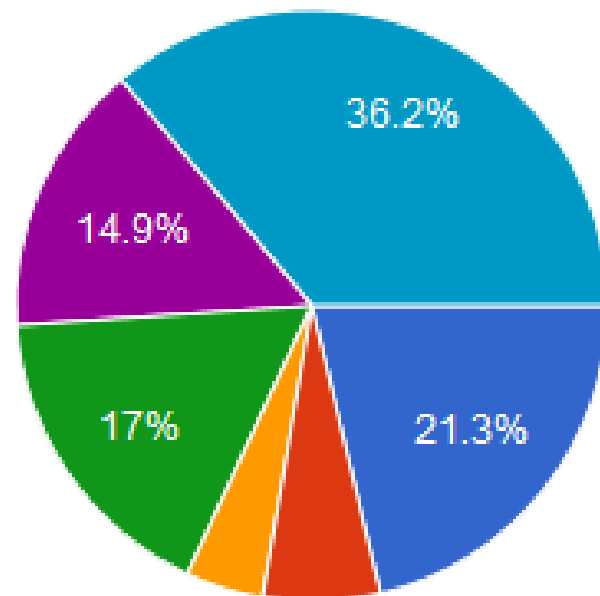

Optional: is there a specific metadata tool that you need to learn to use?

13 responses

The MetdataWizard 2.0
metadata wizard
Metadata Wizard
Wizard, OME, xmlnotepad
USGS, a better understanding of the steps-to-steps to follow
Metadata wizard - particularly how to make corrections within the wizard
The online metadata editor
The ISO tool that is being developed
I now little to nothing about available tools
create Center- and data-specific templates for use in OME
ArcGIS
best available

Optional: Is there a particular data type you need to describe? (Check only one box.)

47 responses

- Flat/simple data files (CSVs, spreadsheets, etc.)
- Data files with self-contained header and attribute information (NetCDF, ...)
- Structured/relational data sets (databases, etc.)
- Spatial data (shapefiles, geotiffs, etc.)
- Models (scripts, modeling tool parameters, and output)
- No particular data type, I need traini...

Optional: Do you have a strong preference for a particular kind of training delivery?
