

Products

For an up-to-date list of CDI Products please see the public facing webpage <https://www.usgs.gov/cdi/products-publications.html>.

CDI Products

Since its first year of inception, CDI has helped fund numerous projects, resulting in applications and training materials to aid scientists and others with data management and data integration. Products are categorized and listed below.

Training and Education

- [Data Management Training Materials](#) currently consists of 10 "train the trainer" modules, in the form of PowerPoints. These modules are available for comment (as of January 2012)

Data Management/Integration Tools

- NWIS Web Services Snapshot Tool for ArcGIS: [Factsheet](#) and [Website](#)
- Geo Data Portal standards based multidisciplinary web processing services and data integration architecture. [Wiki Documentation and Links](#).

Community Innovation

- [myScience: Citizen Science Project Discovery & Public Engagement](#)

Poster and Presentation Support

A CDI banner for a 36" width poster can be downloaded [here](#).
