

November 2016 Monthly Meeting: CDI Closing Voting Session, Council of Data Facilities, Trusted Digital Repositories, Scientific Programming

On November 9, 2016, the CDI Monthly Meeting included:

The CDI Closing Voting Session, where we viewed the **results of community voting on the FY17 Statements of Interest.**

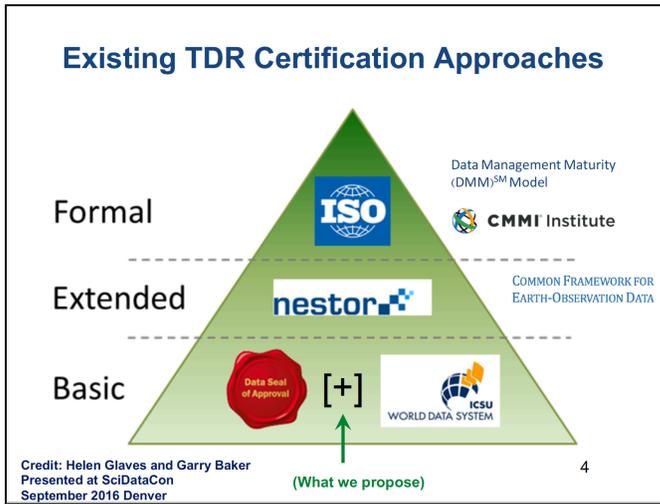

A talk by Danie Kinkade (WHOI) on the **Council of Data Facilities.**

CDF - Why?

- Significant NSF investments in GEO data and cyberinfrastructure facilities.
- serving diverse geoscience communities in significant ways.
- little coordination or partnership between facilities.
- much to offer to help shape and build EarthCube cyberinfrastructure.

Logos included: BCO-DMO, CUAHSI, NCAR, IRIS, NEOTOMA, Arctic Data Center, UNAVCO, IEDA, CCHDO, OOI, IODP, and unidata.

A talk by Keith Kirk, John Faundeen, and Clara Brown (USGS) on **Trusted Digital Repositories in the USGS.**

A Scientist's Challenge presentation by Jeremiah Lant (USGS) on [Collaboration Tools and Workflows for Scientific Programming](#).

Log in to the [CDI Wiki](#) to view the slides and recordings on the [Monthly Meeting Page](#)!
