

# Meeting Notes -- 2016-08-25

## Artifacts

- Meeting recording
  - [Part1](#)
  - [Part 2](#)
- [Meeting slides](#)

## Crowdsourcing the National Map -- Elizabeth McCarthy and Rachel , National Map Corp

- The National Map Corp gets volunteers to update structures in support of The National Map and USGS Topos
- These users verify, update, add or delete points
- This effort is bringing these capabilities to a mobile environment
- Current concerns
  - Licensing issues
  - 508 compliance for a Mobile App
  - Deploying to both iOS and Android devices
  - Pushing the code out the Public; getting community support for improvements

## Using myUSGS for Software Code Review -- Dell Long, FORT

- Demonstration and discussion on use of myUSGS (Atlassian) tools to help software development, including items required by USGS  
Draft Software Release IM
  - myUSGS Bitbucket code repository and Git functions
  - myUSGS JIRA project for branching and feature change tracking

## USGS and DOI Policy Updates

- Policy items
  - Software Release IM
  - Draft DOI Mobile Privacy Policy
  - DOI Mobile 508 Compliance
  - Generic Clearance for CitSci Projects (Paperwork Reduction Act)
- Enterprise Information needs a team to support the software development aspect of mobile software release
  - Mobile Applications Technical Support Team (MATST) request for volunteers
  - Framework review and support
  - Code review
  - Policy review
    - Privacy
    - 508
    - Paperwork Reduction Action/Citizen Science

**Next month suggestions – NEED VOLUNTEERS FOR FUTURE TALKS**
