

DataBlast 2017 (Posters+)

At CDI Meetings, the humble poster session is transformed into a DataBlast. (sometimes written as "Data Blast!" or "!!! Data Blast!")

Read about the components and background of CDI DataBlasts here: [DataBlast2011](#) "a synergistic networking and idea sharing event"

- Contact: Leslie Hsu
- The vision:
 - Any workshop participant can submit an abstract and poster
 - Attending FY16 and FY17 CDI-funded projects will be asked to contribute a poster
 - Abstracts will be collected and posted before the meeting
 - Digital Versions of the posters will be collected for future viewing
 - Posters will be up for the duration of the meeting, with both dedicated and unstructured time for viewing
 - Share your work and your challenges, demo, network, learn...

Please post any comments about past DataBlast sessions and suggestions of how to make this awesome(r).
