NCAR/CISL is hosting a GlobusWorld tour developers workshop in Boulder Oct. 25-26. This will be a hands-on tutorial workshop targeted at developers building web applications for research, system admins who have deployed or are planning to deploy Globus, and others who are interested in learning more about using Globus to develop a research data management service and maintain a modern research data portal.

More information and registration is provided at [https://www.globusworld.org/tour/](https://www.globusworld.org/tour/). Registration is limited to 50 people.

CDI hosted a monthly meeting on Globus in September 2015. Please check out the recording on the [notes page](https://www.globusworld.org/tour/) to listen to the discussion on Globus use cases in the USGS and NCAR.
