

# ScienceBase Version April Released 2019-04-30

## Bug

- [SCIENCEBASE-7774] - As a user I would like to create a folder within a folder
- [SCIENCEBASE-7826] - Logging in with a SB account with a + makes it so I cannot add a folder or file
- [SCIENCEBASE-7854] - Unable to Log Into ScienceBase (and, as result, SBDR app)
- [SCIENCEBASE-7859] - lastUpdatedBy is not getting updated (persisted)
- [SCIENCEBASE-7861] - ScienceBase Support Request throwing an error
- [SCIENCEBASE-7862] - "Failed to connect to Directory for roles" Error when throwing bad request status in authenticated controller action
- [SCIENCEBASE-7863] - [java.io.IOException](#): Server returned HTTP response code: 401 for URL in security plugin
- [SCIENCEBASE-7908] - Files UI: File download is not working
- [SCIENCEBASE-7932] - Troubleshoot Connection with DOI Tool from SB UI
- [SCIENCEBASE-7933] - S3 Download Not Working

## New Feature

- [SCIENCEBASE-7921] - SB3 Files, Items Model
- [SCIENCEBASE-7923] - Item Nav component (left-column)
- [SCIENCEBASE-7924] - Item actions menu (breadcrumbs)
- [SCIENCEBASE-7925] - itemList component
- [SCIENCEBASE-7926] - itemListTable component
- [SCIENCEBASE-7936] - research libraries to make editable components for item views

## Story

- [SCIENCEBASE-7572] - As a user when they upload the file, it determines the content type and base file metadata
- [SCIENCEBASE-7641] - As a Files user I can see understandable error messages
- [SCIENCEBASE-7720] - As a data admin, I can create community's sub-folder and manage permissions

## Task

- [SCIENCEBASE-7703] - Wire Virus check function into files DB API
- [SCIENCEBASE-7715] - UI: Create Community folder
- [SCIENCEBASE-7727] - GraphQL: Create ACL on Folder
- [SCIENCEBASE-7740] - FQA TEST -SCIENCEBASE-7641-As a Files user I can see understandable error messages
- [SCIENCEBASE-7741] - FQA Test -SCIENCEBASE-7571- A user can download a file that has been approved.
- [SCIENCEBASE-7801] - prod-mongodb is down to ~91GB free space
- [SCIENCEBASE-7817] - GraphQL: Add missing error handlers
- [SCIENCEBASE-7818] - Catch errors in files api and make them friendly
- [SCIENCEBASE-7856] - Set up production [Login.gov](#) endpoint and integrate with prod Keycloak
- [SCIENCEBASE-7858] - FQA TEST April
- [SCIENCEBASE-7860] - files-service: REST Services for sub-folders with Sub-Spaces/ACLs
- [SCIENCEBASE-7864] - Add keycloak authentication to directory
