

Partner Organizations

An important aspect of Community for Data Integration is its ability to interact and collaborate with other community-driven efforts. This page serves as an area to describe the kinds of partnerships that CDI participates in, and add more.

The CDI partners with many other organizations either as a USGS entity or through its members. This page provides a developing list.

- [CUAHSI Hydrologic Information System \(CUAHSI-HIS\)](#)
- [Data Observation Network for Earth \(DataONE\)](#)
- [EarthCube](#)
- [Earth Science Information Partners](#)
- [Open Geospatial Consortium \(OGC\)](#) - The OGC is a non-profit, international, voluntary consensus standards organization that is leading the development of standards for geospatial and location based services.
- [The Open Source Geospatial Foundation \(OSGeo\)](#) - The OSGeo organization supports and builds high-quality open source geospatial software, and organizes the annual
- [Research Data Alliance](#)
- [Unidata](#) (THREDDS, OPenDAP, netCDF) - Unidata provides a broad array of data and software tools for use in geoscience education and research.
