

TSWG - Meetings - 20110322

[Webex Recording](#)

- **Mobile Applications Development: work and new sub-group**(length:20 mins)
 - Burl Goree
 - Abstract:
- **myUSGS Confluence Demo**
 - Tim Kern
 - Draft outline
 1. CSS/CSI Confluence Instance Background (what is it for, how do I get to it, ...)
 2. Current Access (authentication and authorization)
 - Use of Crowd
 3. Functional Differences between Confluence and MyUSGS/Alfresco, MyUSGS Wiki, USGS Drupal, and USGS SharePoint (others? Etherpad seems to fit a separate niche, so I did not include it here)
 - Current Features
 - Customizations
 4. Ties To Other Projects (is this just another silo?)
 5. Long Term Support (will this still be around in a year? is it going to cost me anything? ...)
