

2019 DataBlast Posters submission

Instructions

1. Please **login** and create a "New Topic" to submit your poster abstract. *Note: If you are not currently a CDI member, you may experience difficulty submitting the form. If this is the case please send your poster title, abstract, and authors to cdi@usgs.gov.*
2. **Important:** save your description text on the first page. If you run into an error when clicking "next", try entering just a text snippet like "text" into the description box and advancing to the second page before pasting in your full description. We are working on fixing this issue.
3. On the second page of the template, you will be able to specify the title of your poster as the title of the page.
4. Email cdi@usgs.gov if you have any questions.
