

Vocabulary Servers and Knowledgebases

NERC Vocabulary Server

(http://www.bodc.ac.uk/products/web_services/vocab/)

- UK Natural Environment Research Council, **British Oceanographic Data Centre**
- "The NERC Vocabulary Server provides access to lists of standardized terms that cover a broad spectrum of disciplines of relevance to the oceanographic and wider community."

Marine Metadata Interoperability (MMI) Vocabularies & Standards References

(<http://marinemetadata.org/conventions>)

- "MMI provides a set of references to various standards, vocabularies, ontologies, thesauri, services, and formats that are of particular interest to the marine science community or those working on interoperability. MMI has evaluated many of the listed references and provides a description, an informal characterization of its maturity, in some cases, and link to a primary resource where available."
- Separate compilations for:
 - [Vocabularies](#)
 - [Ontologies and Thesauri](#)
 - [Content Standards](#) and [Services](#)
 - [Protocols and Formats](#)
