

# Western Governors' Association Webinar: Biosecurity & Invasive Species Initiative launch

2018-07-10: Sign up for a 12-July Webinar at 3:30 PM ET. WGA Chair and Hawaii **Gov. David Ige** will highlight the importance of invasive species management in the West and announce the locations of regional workshops as part of his Chairman's Initiative during a webinar this Thursday. Leaders in invasive species data management will also discuss WGA's Invasive Species Data Management Protocol, a new effort to improve the interagency exchange of invasive species occurrence data in the West.
