FICMNEW members and friends participate in an informational elist, hosted by USDA's Agricultural Research Service (ARS).

To subscribe to the FICMNEW list, please send your full name and email address to

Annie Simpson asimpson@usgs.gov

and she will see that you are subscribed to the elist.

Emails are irregularly distributed via the list (a digest version is not available at this time), and they average one or two per week.

Alternatively, virtually all of the information sent out on the elist is posted soon after its distribution on our [blog page](#).
