

# Bioinformatics CoP Meetings

The Bioinformatics CoP is not currently meeting.

## Past Meetings and Notes

- **April 16, 2019:** White Shark eDNA, Kevin Lafferty (cross-listed with [eDNA meeting](#)) [190416\\_CDI-eDNA.mp4](#)
- **June 19, 2018:** SNP Topics and SNP Survey
- **April 17, 2018:** Introduction to iMicrobe Platform (Bonnie Hurwitz, Univ of Arizona)
- **March 20, 2018:** eDNA call (TDB)
- **February 20, 2018:** Christina Kellogg Microbiome seminar & AWS demo & list future topics
- **January 16, 2018:** eDNA CDI Community of Practice roll out
- **October 17, 2017:** Ongoing efforts led by the Alaska Science Center to provide templates and guidance for genetics data release (Barbara (Bobbi) Pierson)).
- **August 15, 2017:** KBase: a software and data platform designed to meet the grand challenge of systems biology: predicting and designing biological function.
- **July 20, 2017:** RNA-seq (measuring gene expression with high-throughput sequencing). Informal discussion to share best-practice tips, get people past any specific roadblock, and seek consistency in the data release process.
- **June 20, 2017:** Review of Bioinformatics platform options and Getting Started with CLC Genomics Workbench
- **May 16, 2017:** no meeting due to overlap with CDI Workshop in Denver
- **April 18, 2017:** Yeti (HPC) Resources
- **March 21, 2017:** Data Release for Bioinformatics data
- **February 28, 2017:** [Alces Flight](#), [Hackathons](#).
- **January 24, 2017 notes:** [Inaugural Call](#)
