- [HABF-3158] - New Accomplishment Control: Is Fishing Or Hunting Allowed

5.14.3 - 03/26/2018

Change

- [HABF-3155] - Release 5.14.3

Task

- [HABF-3143] - Add GLRI to initiatives list

Defect

- [HABF-3146] - Error when editing accomp for new mechanism.

5.14.2 - 03/01/2018

Change

- [HABF-3142] - HabITS 5.14.2 deployment

Task

- [HABF-3140] - Validation errors being reported incorrectly in Validation Detail Report

5.14.1 - 02/08/2018

Change

- [HABF-3111] - HabITS 5.14.1 deployment

Task

- [HABF-3080] - Fix Report Map images to show correct boundaries and project points.
- [HABF-3083] - Fix Species Summary Report map images
- [HABF-3113] - Show Projects by species in the mapped areas
- [HABF-3131] - Upgrade HabITS5 to use the new Artifactory

Defect

- [HABF-3105] - Publishing a Focus Area isn't showing correct data (QA).
- [HABF-3107] - Fixes and Changes to Reports found during HABF-3104 pt.2
- [HABF-3108] - Fix Post exports barracuda issue
- [HABF-3112] - Publishing a Focus Area isn't showing correct data (beta).
- [HABF-3115] - Validation Report reporting incorrect values

Story

- [HABF-3073] - Create UI to access Summary Reports
- [HABF-3114] - Remove the FPDSS layer from map instances
- [HABF-3119] - Species Summary Report - Display Listed Species map Historical Range
- [HABF-3120] - Species Summary Report - Display Listed Species map for Current Range
- [HABF-3121] - Species Summary Report - Display Project Points for ITIS Species map
- [HABF-3122] - Species Summary Report - Display Completed Accomplishment Summary
- [HABF-3123] - Species Summary Report - Display Project and Accomplishment counts

5.14.0 - 12/29/2017

Change

- [HABF-3090] - Production release of HabITS 5.14.0 - reports

Task

- [HABF-2507] - Report Framework - Display filter variables in a user friendly way
- [HABF-2856] - Update HabITS Proxy Servlet tokens - 1/3/2017
- [HABF-2982] - Integration tests for Validation Detail Report
- [HABF-2986] - Improve Report Controller and Report Service Architecture

5.12.1 - 6/15/2017

Defect

- [HABF-2793] - Strategic Plan Totals Report not running on 5.12.0

5.12.0 - 6/15/2017

Summary

Release 5.12.0 focused on introducing the changes needed for

- Creating A Strategic Plan Activity
    - Users can enter an activity for both Metric and Non-Metic bases reporting
- Setting Strategic Plan Targets and Progress
    - A Regional coordinator is able to set Targets for the region

Strategic Plan Activity Entry

- User is able to create a new Strategic Plan Activity
    - User is able to see a link under **Habitat Improvement** dropdown for "Create a New Strategic Plan Activity"
    - While searching for an **Strategic Plan Activity** ,the user is able to see a Button for "New Strategic Plan Activity"
- On Create a Strategic Plan Activity Form user is able to see the following fields
    - **Activity Name** - Required - Max Length is 300 Characters
    - **Lead Program** - Required
    - **FWS Point of Contact** - Required. Note that the default is based on the current user
        - Options to view Recently Selected POC's
        - Option to Find other POC's
    - **Activity Type** - Required. Note that activity types are broken down by the Goals for the current Active Generation
        - Once selected user will be required to enter a "Value" for that Activity Type
        - The language of the Value will change based on the Activity type selected
            - For example - If Congressional Outreach then a message for "Enter the number of outreach activities" will be presented
        - User can only select **ONE**, activity type per Strategic Plan Activity
    - **FWS Initiatives** - Optional.
        - Users are able to select more than one
    - **Date of Activity** - Required
        - Default value is current system date
        - Users can select any date within the Active Generation
        - **Fiscal Year** is Controlled by the Date of Activity
        - **Generation** is an indicator of the current Active Generation
    - **Projects** - Optional
        - users can associate the Strategic Plan Activity to a Project(s)
        - User can search for a project
        - Users can select more than one project
    - **Narrative** - Required
        - Users must at least put in one character
        - Character count is displayed
- If user does not enter all required fields the system will provide guidance on missing values
- On Save user will receive a confirmation notice that the Activity Plan was created
- User is able to Search for a Strategic Plan Activity
    - User is able to see a Link under **Habitat Improvement** Dropdown for **Search for a Strategic Plan Activity**
- On Search of a Strategic Plan Activity form user is able to see the following filters
    - **Activity ID**
    - **Activity Name**

        - **Lead Program** - Multi Select
        - **Activity Type** - Multi Select
        - **Point of Contact** - Multi Select
            - User is able to search
        - **Lead Office** - Multi Select
            - user is able to Search
        - **State** - Multi Select
        - **Region** - Multi Select
        - **Generation** - Multi Select
- User is able to Sort Results based on
    - Activity ID
    - Activity Name
    - Generation
    - Date Created
    - Last Update
- User is able to change Max Results per Page
    - 10
    - 20
    - 50
    - 100
- User is able to export list results to Excel
    - Table format
        - ID
        - Name
        - Generation
        - Region
        - Activity Types
            - Note that in Generations 2 and 1 users were able to select more than one activity type. Those will more than one will display as (Multiple)
        - Program Type
        - State
        - Fiscal year

Strategic Plan Targets and Progress

- New Link under Habitat Improvements
    - Labeled Strategic Plan Targets and Progress
        - On Click user is redirected to new targets page
- New Strategic Plan Targets and Progress Page
    - New Page is opened
        - Generation - Default is current active generation
            - User can select previous generations but Page will change to read only as users can only modify active generations
        - Region - Default is users home office regions
            - User can select other regions

        - If user has the correct role for that region, they can modify that regions targets.
        - If user does not have the correct role for that region, they can only view and be in re-only mode
    - All Goals and Measures are displayed for that Generation and Region
    - User can set the Targets for the measures for that goal - TBD

Task (subtask)

- [HABF-2392] - Add Strategic Plan Activity and Link to Create A New Strategic Plan Activity
- [HABF-2397] - Add New Tab for File Upload
- [HABF-2398] - Add File From Details to Strategic Plan Activity
- [HABF-2399] - Existing File Results Table

Task

- [HABF-2427] - Update ecos_data with missing person records, BETA and QA.
- [HABF-2493] - Add database and domain entities to support Strategic Plan generations, goals, metrics
- [HABF-2494] - Determine complexity score of geometries

- [HABF-2768] - Cannot remove geometry
- [HABF-2769] - Add the ability to identify HabITS layers
- [HABF-2788] - Remove geometry > Sketch doesn't work

5.11.3

April 18th, 2017

Summary

- Hotfix release to address an Accomplishment form defect regarding the available Treatment types and a database modification to speed up Species Lists loading times.

Task

- [HABF-2599] - Optimize the habits4.scoped_habits_species view

Defect

- [HABF-2623] - Treatment options when creating an Accomplishment are not populated

---

5.11.2

Summary

- Hotfix release to add new initiatives and fix minor defects

Task

- [HABF-2607] - Add 2 new Initiatives

Defect

- [HABF-2562] - File Search report throws and error and doesn't render the files
- [HABF-2601] - Help Link is Broken

5.11.1

Summary

- Hotfix Release to address various post 5.11 defects

Task

- [HABF-2454] - Initially Integrate 3rd Party JS w/ Mapper Plug-in Control - Shapefile Export
- [HABF-2464] - Create No-Op Mapper Plug-in Control - Layer Order
- [HABF-2465] - Initially Integrate 3rd Party JS w/ Mapper Plug-in Control - Layer Order
- [HABF-2488] - Implement Workaround for IE anchor href attribute character limit
- [HABF-2589] - Devin Misc changes
- [HABF-2590] - Allow Focus Area targets to be saved as Decimals

Defect

- [HABF-2528] - Can't cut more than one hole in a geom
- [HABF-2582] - Accomplishment and Habitat Type filters for Advanced Reports don't work with multiple selections
- [HABF-2586] - Multi-select report params do not transfer to Jasper properly
- [HABF-2591] - FF ignoring cell widths in advanced reports

5.11.0

Summary

- Update Report UI to show only the needed reports
- Modify the Monarch report to include all Pollinators
- Modify the Climate Change reports to use the FWS Initiative instead of the special funding category
- Pilot an alternative approach to developing canned reports
- Produce the Completed Performance and Completed Fish Passage Performance reports using the new report framework
- Resolve a variety of defects
- HabITS5 logo added to Dashboard and Favorite icon added

Task

- [HABF-2331] - First pass upgrade of Leaflet 1.0
- [HABF-2450] - Retrieving Species for the user performs too slowly - times out
- [HABF-2484] - Proof of Concept Habits5 Based Report Design
- [HABF-2488] - Implement Workaround for IE anchor href attribute character limit
- [HABF-2508] - Report Framework - Hyperlink module IDs to their associated module.
- [HABF-2511] - Implement Release Note functionality

Documentation

- [HABF-2213] - Begin Reports Requirements Process

Story

- [HABF-2245] - Update Monarch Report to Include Pollinators
- [HABF-2253] - Change Climate Reports to use FWS Initiative - Climate Change
- [HABF-2407] - Updates for Performance Completed Totals Report
- [HABF-2413] - Updates for Performance Completed Fish Totals
- [HABF-2414] - Update Completed Fish Passage Accomplishment Performance List
- [HABF-2415] - Update Completed Accomplishment Totals
- [HABF-2510] - Updates for Performance Completed List
- [HABF-2512] - Remove requirement to enter a target to save a draft Focus Area
- [HABF-2517] - Remove these geographic reports presented in the UI

Defect

- [HABF-2185] - Various domain objects use the XsoFwsOffice while the habits4 schema has an EcosOffice constraint.
- [HABF-2329] - Unexpected Server Error when Selecting Specialty Reports
- [HABF-2402] - Editing the Accomplishment geometry adds a % in IE
- [HABF-2430] - Troubleshoot truncation of large response payload
- [HABF-2489] - Remove validation message for previous FY when Accomplishments are locked
- [HABF-2505] - No delete pop-up appears when trying to delete an Accomplishment from the Dashboard
- [HABF-2516] - Focus Area reports are not reporting all species
- [HABF-2526] - Fix file deletion for all habits
- [HABF-2527] - POC Filters on the Search pages not showing previously selected POC

5.10.0

Summary

- Combine Focus area work (5.10) with Mapping work (5.9)
- Focus Area
    - On clicking, if data is available a progress bar is presented
        - Display all values if available, but NA
    - User is able to see and select 'Display Progress of All Benefited Habitat Type Targets'
        - Display all values if available
        - On click, if data is available a progress bar is presented
    - User is able to see Change Log at top of page if modification is done
    - User is able to See 'Edit Focus Area Geometry' button with thumbnail of focus area.
        - On click, user is able to edit map details and adjust boundaries.
    - User is able to search for a focus area
    - User is able to apply filters to refine focus area search
    - User is able to export focus area list results into Excel
    - User is able to create a new focus Area
    - When selecting a focus area, status details have bee added
    - When selecting a focus area user is able to see and select 'Display Progress of Targeted Benefited habitat Type Targets'
    - When selecting a focus area user is able to Edit and be redirected to Edit Focus Area
- Mapping
    - User is able to draw a box for selection
    - User is able to draw a Circle for selection
    - User is able to Sketch (free form)
    - Drag Selection of elements based on layers
    - On selection user will need to submit or clear

Task

- [HABF-1411] - Augment mapping module with reference layer geometry selection
- [HABF-1413] - Augment mapping module with geometry cropping operation
- [HABF-1416] - Augment mapping module with geometry intersection operation
- [HABF-1417] - Augment mapping module with geometry union operation
- [HABF-1418] - Augment mapping module with geometry difference operation
- [HABF-1852] - Add SSURGO as a reference layer in the map editor
- [HABF-2105] - Create a search page for Focus Areas
- [HABF-2106] - Set up Filters for Focus Area Search (UI)
- [HABF-2107] - Set up Filters for Focus Area Search (Back End)
- [HABF-2108] - Filter Focus Areas by chosen criteria
- [HABF-2109] - Display a list of Focus Areas on the Search page (UI)
- [HABF-2110] - Sort the Focus Area list on the Search page.

- [HABF-2111] - Excel download of filtered list of Focus Areas from the search page
- [HABF-2112] - Create an edit page for Focus Areas
- [HABF-2113] - Create the Focus Area "Properties" tab form
- [HABF-2114] - Create the Focus Area "Files" tab form
- [HABF-2115] - Create the Focus Area "Benefits by Habitat Type" tab form
- [HABF-2116] - Create the Focus Area "Change Log" section in the Properties Tab
- [HABF-2117] - Create the Focus Area "Published Versions" section in the Properties Tab
- [HABF-2118] - Create the Focus Area "Targets" section for "Benefits by Habitat Type"
- [HABF-2119] - Create the Focus Area "Citations" for "Benefits by Habitat Type" section
- [HABF-2120] - Create the Focus Area "Species" section for "Benefits by Habitat Type" tab form
- [HABF-2121] - View a Focus Area in Read-only mode.
- [HABF-2122] - Save a Focus Area as Draft
- [HABF-2123] - Display a Thumbnail map of the Focus Area on the "Properties" tab
- [HABF-2125] - Publish a Focus Area
- [HABF-2126] - Delete a Focus Area
- [HABF-2128] - Setup domain objects for Focus Areas
- [HABF-2129] - HabITS Focus Area Requirements part2
- [HABF-2133] - Preliminary analysis on HabITS reports usage
- [HABF-2144] - Optimize Reference Layer Context Menu "Activate" Action
- [HABF-2148] - Remove notices to use legacy mapper system from HabITS5
- [HABF-2154] - Constrain Changelog list to Current Version of the selected Focus Area
- [HABF-2155] - Load up Targets data for Benefit By Habitat Type for Focus Areas
- [HABF-2156] - Load up Target Citation data for Benefit By Habitat Type for Focus Areas
- [HABF-2157] - Load up Target Species data for Benefit By Habitat Type for Focus Areas
- [HABF-2158] - Create Domain Cross for Focus Area Species
- [HABF-2159] - Customize Map Area Selection Tool w/ User Draw
- [HABF-2160] - Determine User Rights for Focus Areas
- [HABF-2165] - Code Test Focus Area Work
- [HABF-2169] - Tomcat8 on HabITS5 on QA
- [HABF-2171] - Rewrite the Focus Area Detail Report in the new system
- [HABF-2172] - Rewrite the Published Focus Area Summary Report in the new system
- [HABF-2173] - Gather requirements for showing Focus Area Progress
- [HABF-2181] - Add/Edit a Citation to a Benefitted Habitat Type for a Focus Area
- [HABF-2183] - Remove a Citation to a Benefitted Habitat Type for a Focus Area
- [HABF-2184] - Fix all unit and integration tests on 5.10 branch
- [HABF-2188] - HabITS Focus Area Requirements part3
- [HABF-2189] - Design UI for Focus Area Progress
- [HABF-2190] - Focus Area Progress on Focus Area Search
- [HABF-2191] - Get Accomplishment Target Data to track Focus Area Progress (Service)
- [HABF-2192] - Provide Accomplishment Target Data to Focus Areas
- [HABF-2193] - Incorporate customer dev meeting map selection (non-confirmation) feedback
- [HABF-2194] - Setup Domain model to track Focus Area Progress
- [HABF-2197] - Ajax-ify- the Focus Area Progress slide area on the Search page.
- [HABF-2198] - Targets values are not being assigned correctly for Focus Areas
- [HABF-2200] - Create focus area species records
- [HABF-2201] - Fix focus area save to take into consideration it is an edit of an existing focus area.
- [HABF-2202] - Focus area errors are not showing up during create or edit.
- [HABF-2203] - Augment Identify operation for specific scenarios
- [HABF-2204] - Modify Selection Tool Behavior based on User Feedback
- [HABF-2207] - Implement workflow business rules for Focus Areas
- [HABF-2208] - Changelog not visible when doing various edits
- [HABF-2217] - Merge version branches 5.9 and 5.10 in preparation for UAT
- [HABF-2218] - Perform regression testing after merging code branches
- [HABF-2220] - Application error page in Habits is showing old Helpdesk number
- [HABF-2224] - Habits testing of Changelogs
- [HABF-2225] - Habits focs area testing of Benefited Habitats and Targets
- [HABF-2231] - Assist systems with Tomcat 8 upgrade for HabITS5
- [HABF-2232] - Register Township Reference Layer
- [HABF-2241] - Toggle Focus Area Progress information
- [HABF-2242] - Stub out basic tooltips for Focus Areas so pages render properly
- [HABF-2243] - Publishing a Focus Area results in an error
- [HABF-2294] - Update Focus area Detail and Summary Report to use a Geom image instead of the map
- [HABF-2296] - Show text counter for Focus Area Narrative when the Focus Area is Active
- [HABF-2323] - Fix HabITS Unit tests
- [HABF-2371] - Deploy HabITS 5.10 to production
- [HABF-2378] - Regression test HabITS5 prior to the production release of 5.10.0
- [HABF-2379] - Add "Gulf Coast Restoration Initiative" to the FWS Initiatives list
- [HABF-2380] - Add "Working Lands for Wildlife" to the Initiatives

Administrative task

- [HABF-2174] - Project Management - Occam, October 24
- [HABF-2187] - Project Management Task
- [HABF-2210] - Project Management - Occam November 21, 2016 Sprint

Documentation

- [HABF-1809] - Analyze Focus Area data model and workflow
- [HABF-2104] - Create System Specifications Document for Focus Areas

- [HABF-2212] - Create System Specifications Document for Focus Areas
- [HABF-2321] - Come up with some new Logo ideas for HabITS5

Story

- [HABF-851] - Update the process for saving Focus Area geometries so they recover from intersection errors
- [HABF-2083] - Improve performance of the species lists
- [HABF-2149] - Create Map Area (Reference Layer) Selection Tool
- [HABF-2150] - Augment Map Area Selection Tool w/ AGS Reference Layer awareness
- [HABF-2151] - (Optionally) Augment Map Area (Reference Layer) Selection Tool w/ Lasso (Circle) Shape
- [HABF-2162] - Augment Map Area Selection Tool w/ GeoJSON Reference Layer awareness
- [HABF-2175] - Augment Map Area (Reference Layer) Selection Tool w/ Sketch (Free Draw) Shape
- [HABF-2186] - Augment Map Area Selection Tool w/ AGS Tile Reference Layer awareness
- [HABF-2301] - Project Management - Occam December 19, 2016
- [HABF-2325] - Setup Specialty Reports

Defect

- [HABF-2016] - Remove geometry, changing geometry type, reverting
- [HABF-2028] - Null pointer when editing a Project that (somehow) doesn't have a Mechanism
- [HABF-2054] - Selecting a complex geometry (from a shapefile) does not show context menu
- [HABF-2065] - Lazy initialization error for Accomplishments with Partners not in Mechanism (beta)
- [HABF-2082] - When reference layer image loading fails, context menu access and other event handling is compromised
- [HABF-2124] - Only show Geom edit messages for aspects while in Edit mode
- [HABF-2127] - Lada button spinners are cut off in their buttons
- [HABF-2176] - ECOS Home page hyperlinks do not work from the HabITS V5 Dashboard
- [HABF-2209] - Citations not sent to focus area save after initial creation
- [HABF-2228] - Focus Area search is showing incorrect number of Focus Areas per page.
- [HABF-2230] - Accomplishment search is showing incorrect number of Accomplishments per page.
- [HABF-2236] - Focus Area form should retain data after validation errors
- [HABF-2237] - Existing Citations are being deleted when no citations are added
- [HABF-2238] - Exception when publishing new Focus Area
- [HABF-2239] - Save Draft button doesn't appear when creating a new Focus Area until a citation is added
- [HABF-2244] - UAT - Issue with Remove geometry and re-add a new geometry does not save the new geometry
- [HABF-2250] - Species are not being saved -for benefitted habitats-
- [HABF-2255] - UAT - Searching issue with available species search
- [HABF-2256] - UAT - All Accomplishment geometry tools display after cutting a hole in a polygon
- [HABF-2257] - UAT - Unable to delete focus area Polygon
- [HABF-2258] - Fix Layers in the HabITS Maps
- [HABF-2265] - FIX FWS Refuges
- [HABF-2292] - The identify operation doesn't work for some layers
- [HABF-2295] - Focus Area form should retain data after coming back from the Map
- [HABF-2315] - Focus Area showing both Draw and Base layer for the editable shape.
- [HABF-2336] - Reference layer selection - Querying the related Accomplishment polygon layer does not return results
- [HABF-2337] - Querying some layers (SSURGO) never complete loading
- [HABF-2338] - Editing an Accomplishment geometry when there are active many-to-many relationships fails
- [HABF-2345] - Crop to Parent is missing from context menus
- [HABF-2346] - Context menu options of features from a shapefile requires Activation first
- [HABF-2384] - Apply a negative buffer on the Accomplishment geometry when retrieving Accomplishment Types
